

Vaccination Research Resources

(For educational purposes only – not medical advice)

1. Introduction

This document compiles a wide range of resources, studies, expert voices, and historical perspectives to help parents and individuals make informed decisions about vaccines.

2. Documentaries & Films

- Vaxxed — <http://vaxxedthemovie.com>
- Vaccines Revealed — <http://www.vaccinesrevealed.com/free/>
- The Greater Good
- Shots In The Dark
- Vaccination: The Hidden Truth
- Vaccine Nation
- Vaccination – The Truth About Vaccines
- Lethal Injection
- Bought
- Deadly Immunity
- Autism: Made in the USA
- Beyond Treason
- Trace Amounts
- Why We Don't Vaccinate
- Autism Yesterday
- Denmark Documentary on HPV Vaccine
- Man-Made Epidemic
- 50 Cents A Dose
- Direct Order
- The Viral Delusion (Michael Wallach) — <https://paradigmshift.uscreen.io/>

3. Podcasts & Audio Resources

- Viral Myth – Alec Zeck — https://open.spotify.com/episode/4Os5e5pDBjHGmZU2rM35tk?si=EXPw9KnHRYmbvRkRyS_0tA
- 5 Talking Points in Your Vaccine Conversations — <https://open.spotify.com/episode/3SiqxfcUMKlZqkYnvnGAzA?si=xDv-D-z3SEyDRlPnbu1dCw>

4. Questions to Ask Your Doctor

- What are the ingredients and potential side effects listed on the vaccine insert?
- Why are adverse reactions within weeks of vaccination (e.g., seizure, high fever, regression) often not documented as vaccine adverse events?
- Are we trading common childhood illnesses (e.g., chickenpox, measles) for chronic conditions (e.g., allergies, cancer, skin conditions, developmental regression)?
- Why is vaccination treated as one-size-fits-all when most medications are individualized?
- Why are vaccinations administered in schools without parents present (risk of mistakes/pressure)?

5. Research Studies & Articles

- Vaccinated vs. Unvaccinated – CMSRI overview — <http://info.cmsri.org/the-driven-researcher-blog/vaccinated-vs.-unvaccinated-guess-who-is-sicker>
- Pilot comparative study (OAText) — <http://www.oatext.com/Pilot-comparative-study-on-the-health-of-vaccinated-and-unvaccinated-6-to-12-year-old-U-S-children.php>
- Thimerosal & neurodevelopmental disorders (PubMed) — <http://www.ncbi.nlm.nih.gov/pubmed/25198681>
- Henry Ford Vaccinated–Unvaccinated Study — <https://www.documentcloud.org/documents/26089210-henry-ford-vaccinated-unvaccinated-study/>

6. Doctors & Researchers Speaking Out

- Physicians for Informed Consent — <https://physiciansforinformedconsent.org/>
- Dr. Andrew Kaufman — <https://andrewkauffmanmd.com/>
- Dr. Andrew Wakefield
- Dr. Boyd Haley
- Dr. Sherri Tenpenny
- Dr. Suzanne Humphries
- Dr. Tom Cowan — <https://drtomcowan.com/>

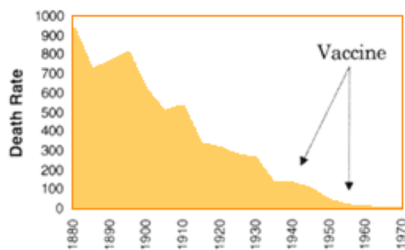

7. Books & Long Reads

- Vaccines and the Diseases They Target (Silver Booklet) — Physicians for Informed Consent
This concise guide provides key scientific and statistical data demonstrating that vaccines are not proven to be safer than the diseases they intend to prevent. It challenges the validity of vaccine mandates and shakes the foundation of the CDC schedule. <https://physiciansforinformedconsent.org/silver-booklet/>

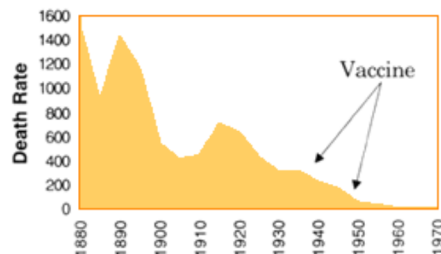

- **Can You Catch a Cold?**
Findings suggest that our understanding of infectious disease is incomplete and challenge the long-held belief that a cold or flu can be 'caught'. <https://a.co/d/g6i4RvK>
- **Dissolving Illusions — Dr. Suzanne Humphries**
Examines the history of vaccines and public health, questioning the narrative of vaccines as the primary drivers of disease decline.
- **Vaccines: A Reappraisal — Dr. Richard Moskowitz**
A physician's skeptical perspective on the safety, efficacy, and necessity of routine vaccination.
- **What the Pharmaceutical Companies Don't Want You to Know About Vaccines — Dr. Shiv Chopra**
Insider view exposing conflicts of interest and safety concerns in the vaccine industry.
- **Bechamp or Pasteur? — Ethel D. Hume**
Explores the overlooked 'Terrain Theory' of Antoine Béchamp, challenging Pasteur's germ theory foundation of modern vaccination.

Charts: Historical Mortality Data

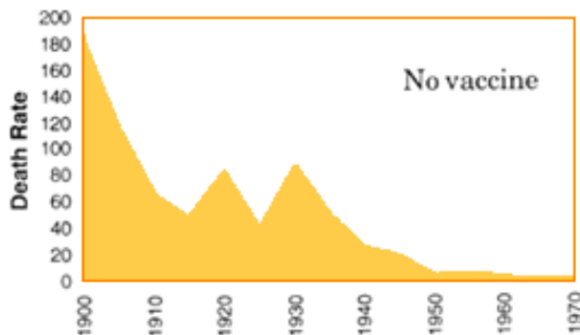

Whooping Cough

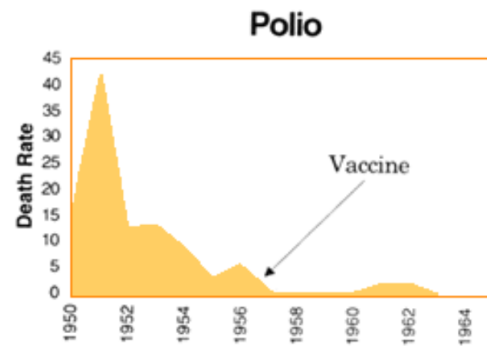

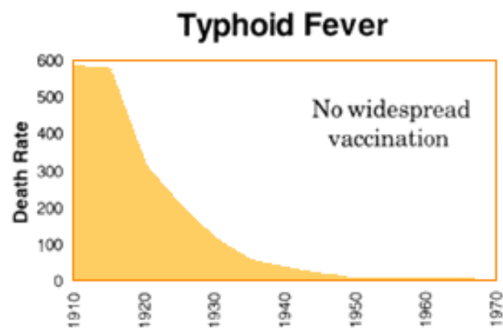

Diphtheria

Scarlet Fever (No Vaccine)

"A single vaccine given to a six-pound newborn is the equivalent of giving a 180-pound adult 30 vaccinations on the same day."

Dr. Boyd Haley, Professor and Chair, Dept. of Chemistry, University of Kentucky (2001)
